

Here are the keyboard shortcuts for Magnifier in Windows 7/8/10:

- 1) Open Magnifier: Windows key + +
- 2) Close Magnifier: Windows key + Esc
- 3) Magnify screen (Zoom in): Windows key + +
- 4) Demagnify screen (Zoom out): Windows key + -
- 5) Open Magnifier in docked mode: Ctrl + Alt + D
- 6) Open Magnifier in lens mode: Ctrl + Alt + L
- 7) To resize the lens in lens mode: Ctrl + Alt + R. Move the mouse to resize the lens. When you are done, click once to set the size.
- 8) Open Magnifier in full screen mode: Ctrl + Alt + F
- 9) Invert colors: Ctrl + Alt + F
- 10) Move left in magnifier screen: Ctrl + Alt + left arrow key
- 11) Move right in magnifier screen: Ctrl + Alt + right arrow key
- 12) Move up in magnifier screen: Ctrl + Alt + up arrow key
- 13) Move down in magnifier screen: Ctrl + Alt + down arrow key

If the lens and full magnification settings are not available, go into preferences and change to an “aero” theme. The high contrast themes may not work.

If control-alt rotates the screen, the hotkeys will need to be turned off in Graphics Options by

1. Right click on a blank area of the desktop
2. Click on Graphic Options
3. Click on Hot Keys
4. Click on Disable.
